12th International Conference on Damage Assessment of Structures DAMAS 2017 Kitakyushu, Japan 10-12 July 2017

Welcome to the website for the 12th International Conference on Damage Assessment of Structures (DAMAS 2017). This is the twelfth in a series of biennial international conferences, which aim to bring together the expertise of scientists and engineers in academia and industry in the field of damage assessment, structural health monitoring and non-destructive evaluation. The conference will cover all research topics relevant to damage assessment of engineering structures and systems including numerical simulations, signal processing of sensor measurements and theoretical techniques as well as experimental case studies.
