6th International Conference on Fracture Fatigue and Wear

FFW 2017

Porto, Portugal
26-27 July 2017

The sixth international conference on Fracture, Fatigue and Wear will be held in the city of Porto, Portugal. The overall objective of the conference is to bring together international scientists and engineers in academia and industry in fields related to Fracture Mechanics, Fatigue of Materials, Tribology and Wear of Materials. The conference covers industrial engineering applications of the above topics including theoretical and analytical methods, numerical simulations and experimental techniques. One of the aims of conference is to promote cooperation between international scientists and engineers from a large number of disciplines, who are involved in research related to Fracture, Fatigue and Wear. FFW 2017 is the 6th FFW conference. Previous conferences were celebrated in Jinan (China, 2010), Kitakyushu (Japan, 2013), Kitakyushu (Japan, 2014), Gent (Belgium, 2015) and Kitakyushu (Japan, 2016).
